

# Web Developer

I build modern, responsive and user-friendly websites, with a focus on clean code, great design and a strong user experience.

Web developer with 2 years of practical experience creating modern, responsive and user-friendly websites. Skilled in HTML, CSS, JavaScript, WordPress and React. I enjoy turning ideas into real websites and I always look for opportunities to learn and grow.

## Experience

2 YEARS

### Web Developer

- Developed and maintained responsive websites using HTML, CSS and JavaScript.
- Built and customized WordPress websites according to project requirements.
- Worked with React to create modern component-based user interfaces.
- Focused on clean UI, responsive layouts and website usability.

## What I can do for you

SERVICES

### Business & portfolio websites

Responsive websites built by hand with HTML, CSS and JavaScript: clean, fast to use and comfortable on every screen size.

HTML · CSS · JAVASCRIPT

### WordPress websites

WordPress sites built and customized to your project's requirements, from the first page to the finished site.

WORDPRESS

### React interfaces

Modern, component-based user interfaces built with React, with the same focus on clean UI and usability.

REACT · JAVASCRIPT

COMPLETED

## Capabilities

Responsive Websites

Front-End Development

WordPress Development

React Development

Clean UI

Website Usability

## What happens next

HOW I WORK

01

You send me a message with what you need.

02

I reply by email or WhatsApp with questions and a plan.

03

We agree on scope, timeline and price before any work starts.

**Have an idea? Let's turn it into something real.**
